

Instruction Manual for Hadley Drinking Cabinet / Herringbone

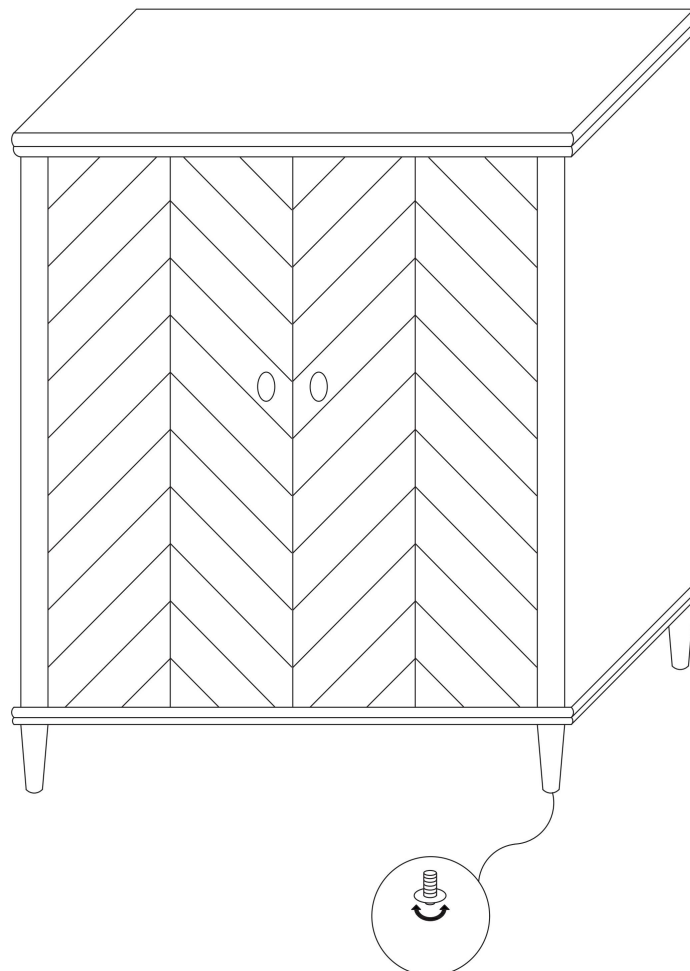

Adjusting Floor Levelers

Your furniture has been expertly crafted and pre-adjusted by professionals. However, slight shifts can occur during transportation. If you notice that the doors are not perfectly aligned or the furniture wobbles, a quick adjustment can help ensure stability and a seamless look.

Check for Stability Place the furniture in its final position on a level surface. If it wobbles or doesn't sit evenly, the floor levelers need adjusting.

Locate the Levelers These are small adjustable feet found at the bottom corners of your furniture.

Adjust as Needed Using your hand or a wrench, turn the levelers clockwise to raise or counterclockwise to lower the furniture. Make small adjustments and check stability after each turn.

HARBOUR

LIFESTYLE

We know buying new furniture is exciting, and there's nothing quite like welcoming a brand-new piece into your home. To help it stay looking and feeling as good as the day it arrived, please follow these simple care tips:

- **Do not** drag or push the furniture; always lift it.
- Use coasters and mats for glassware, dinnerware, cups and mugs, as well as sharp items like cutlery.
- Use heat-resistant trivets for any hot dishes to protect the surface.
- Use felt pads on decorative items (e.g. vases, pots, heavy items).
- Place reed diffusers on a coaster or mat as any spilt oil may have an adverse effect on the surface of the furniture.
- Use a clean, slightly damp (not wet) lint-free or micro-fibre cloth to dust and then ensure the surface is left dry after cleaning.
- For spills, blot immediately to absorb the spill and avoid spreading it out.
- **Do not** use abrasive cleaning products or chemicals such as wire wool, bleach, acidic cleaners (like vinegar or lemon juice) or ammonia-based polishes.
- **Do not** use a steam cleaner.
- **Do not** place directly in front of a radiator or heat source, to prevent the furniture from drying out.

The guide above acts as a quick reference guide only. We recommend that you visit our help centre for the full guide on how to care for your specific furniture range using the QR code below.
